टीपणी (NOTE):

1. The P.U. Map has been prepared from the base map prepared by superimposition of cadastral maps and physical features depicted from satellite imagery. Hence mismatch may be possible. It is to declare the following:
 - The cadastral maps, Survey, Revenue, Water Supply, Drainage, Fire, etc. have been collected from satellite imagery and superimposed on cadastral maps in case of discrepancy, the survey map by DMR showing the physical features and survey no. have no boundary would be considered final.
 - Major Drainage, Ditches, Lanes, Ponds are indicated on the map. The existing 'water drainage' lines are shown from village maps.
 - The land use indicated on the map is proposed land use and does not confer any authorization. Existing activities may be continued.
 - The Director General on the map does not confer any authorization unless verified and notified by District Planning Authority.
 - The map is for reference only and should not be used for any legal purpose.
